WORK EXPERIENCE

OPEN SOURCE CONTRIBUTOR
Infisical

https://github.com/infisical/infisical

Jan 2024 - MAR 2024

- Help implementing GitHub Integration to support multiple different secrets sync to GitHub environment and also add technical documentation on implementation.
- Fix few bugs that solves truncate of text across the admin dashboard.
- Implemented Integration filter and sort feature using Knex, FastAPI, React hook form, React hook query.
- Implemented Secret reference feature to loop through secrets and folder. This feature also includes lint on invalid REGEX.

SENIOR FULL-STACK DEVELOPER
Oktria

https://oktria.com

Sep 2020 - Aug 2023

- Orchestrated enterprise-level codebase with effective CI/CD mono repo structure, featuring canary deployment strategy using GCP.
- Orchestrated migration of Oktria across GCP projects, ensuring seamless Svelte v3 to v4 transition with zero downtime.
- Enhanced the developer's workflow by incorporating type safety and implementing RFCs, while also establishing a strong and reliable end-to-end testing framework using Cypress.
- Enhanced query performance by 23x using SQL Analyzer and strategic column indexing.
- Established centralized document sharing to facilitate team collaboration and foster improvement initiatives.

LEAD DEVELOPER
Salman2301

Est. 2018

Freelance Business and Forum:
- Established and managed a successful freelancing venture, specializing in customizing Wix websites for clients, resulting in substantial user growth.
- Administered an online forum with over 5000 views and a user base of 400+.
  Attained recognition as a Fiverr level-one seller, maintaining an exceptional rating of 4.9 stars from 31 reviews.

Professional Development and Growth:
- Developed adept skills in client management, time allocation, and pressure handling through diverse roles encompassing Marketing, Client Engagement, Coding, Taxation, and Auditing.
- Exemplified unwavering passion for coding, leading to a decision to transition from freelancing due to repetitive nature.
- Leveraged proficiency in coding to accept a full-time sub-contractor role at Oktria.

ONLINE ACHIEVEMENTS

- **Fiverr:** Attained a remarkable 4.9/5 star rating from clients.   Fiverr Profile
- **GitHub:** Several of my code contributions are publicly available as open source.   GitHub Profile
- **Codewars:** Received an esteemed 523 honor recognizing problem-solving proficiency.   Codewars Profile
- **CodinGame:** *Coding Speed Legends* achieved for competitive coding under time constraints.   CodinGame Profile
